2. One route was from Chlumec westward to Prague via Podbrady. The road on which I traveled was an all weather hard surfaced road (#924) and is considered a first class highway. It is over two lanes wide and macadam surfaced.
3. This road has a foundation of crushed rock. It is inspected and maintained periodically by an assigned road crew. The road was constructed for heavy usage and is crowned for easy drainage.
4. This stretch of road runs through level terrain and the curves are extremely shallow. attain high speeds on this road. A shoulder approximately three to five feet wide runs along both sides of the road which is used for emergency parking.
5. Except for heavy Skoda military trucks, tarpaulin covered, there was not much traffic.
6. A concrete-steel highway bridge is located east of Odrepy. It is in good condition, is over two lanes wide and capable of absorbing heavy usage. Another concrete-steel highway bridge, also in good condition, over two lanes wide is located in Podbrady. It crosses the Labe river which flows north and south. A third concrete-steel highway bridge is located at St Vestec. It crosses the Tyzicky river which flows north and south. It is in good condition, is over two lanes wide and could also absorb heavy usage.
